Developing the CEOs of Tomorrow

Nation Building Through Leadership Development

At Axiata, we believe that nation building begins with nurturing young, talented individuals who aspire to be the CEOs of tomorrow.

The Axiata Young Talent Programme (AYTP) is our unique leadership initiative for young Malaysians at National Secondary School, Pre-University and University levels who have demonstrated academic excellence and outstanding involvement in extra-curricular activities.

Under this programme, we have the Ax-Factor curriculum that focuses on building the essential values, attitudes, critical and business skills to equip young Malaysians with both personal and leadership competencies needed to become future CEOs of Malaysia.

The University Leadership Development Programme (ULDP) is a 'summer camp' style programme scheduled from 8 August till 22 August 2014 and open to Malaysian undergraduates studying in local and overseas universities. Application for ULDP opens 17 February till 31 May 2014 on the Axiata Young Talent Programme Facebook page. Follow our Facebook page for more updates.

For more information on the programme, please visit www.axiatafoundation.com or contact us at +603 2263 8877.

"Great leaders are made, not born."
